RE: Construction of Public Trail in Arboretum Business Park

Dear Mr. Tongen:

On behalf of the Chanhassen City Council, I would like to express our appreciation for a job well done in constructing the most recent phase of the Arboretum Business Park public trail. I have visited the newly completed trail and found it to be a beautiful addition to our expanding trail network. As you are aware, our citizens benefit greatly from having access to an extensive local trail system. This trail provides opportunities for recreation and fitness, stress reduction, nature viewing, and strengthens property values.

Hundreds of workers employed in the Arboretum Business Park can now enjoy convenient access to the Chanhassen Nature Preserve trail. As a result, employers will benefit through increased employee productivity, moral and overall job satisfaction. Steiner Construction Services can take great pride in knowing that you have built a world class office park in our community and I would especially like to recognize your personal attention to completing this project below budget and on time.

Very truly yours,

CITY OF CHANHASSEN

Tom Furlong
Mayor
